

Exciting Opportunity for an Experienced
Nurse Clinical Analyst

Location: East Coast – 50% Travel Required

Job Description:

We are looking for a client focused, highly motivated individual to assist us in our enterprise wide EHR rollout. Our client's practice is a community aligned, multi-specialty healthcare organization focused on exceptional patient care and the health education of our community. We are looking for a candidate who aligns with our focus.

This position requires knowledgeable experience in all aspects of ambulatory clinic workflow. This knowledge should be coupled with computer skills and a desire to improve healthcare through technology. A clinical background is essential and experience in electronic health records is highly desirable.

Responsibilities:

- Assess individual physician practice workflows and requirements for the Electronic Health Record
- Serve as a liaison between the clinical and information system staff to match clinical needs to electronic health record delivery
- Work with the project team to build necessary dictionaries for the EHR
- Assess end user training requirements
- Creation of project required documentation including but not limited to status reports, end user training materials, etc
- Provide support for 'go live' in each clinic
- One on one end user training as needed
- Participate/lead project status calls to ensure timely completion of set goals
- Provide weekly (potentially daily) status reports to expedite issue handling
- Provide ongoing support for the electronic health record

Requirements:

- Strong clinical background- nursing background highly desirable
- Working knowledge of ambulatory workflow in physician offices of ranging sizes
- Experience in workflow redesign in ambulatory clinic environments
- EHR experience highly desirable especially Allscripts, Touch Works
- Excellent PC skills
- Excellent communication skills

- Strong problem solving skills
- Ability to work independently
- Ability to work in a fast paced, diverse team environment
- Project management/project lead skills a plus

Working Conditions:

- Overtime may be required in meet project deadlines.
- Sitting for extended periods of time.
- Dexterity of hands and fingers to operate a computer keyboard, mouse, and other devices and objects.
- Physically able to participate in training sessions, presentations, and meetings.
- Some travel may be required for the purpose of meeting with clients, stakeholders, or off-site personnel/management.
